Subject: Press Inquiry

Greetings.

Here below are a few questions regarding the pending proposed ozone FIP for the Uintah and Ouray Reservation. Would it be possible to get responses to the following? (Background is an option).

1. What is the status of the proposed FIP (i.e. was it pulled back and when should we expect it)?
2. Assuming that the BLM methane venting and flaring rule goes away per pending repeal efforts in Congress, a. Does that have implications/effects on the proposed FIP?
b. Does the FIP process have any implications for emitters now covered by the BLM rule?

Thanks.
